Highlight

As a Cyber Security Summer Analyst at Accenture, I am interested in building on my knowledge with Threat/Risks Modeling, Vulnerability Management and Response & Recovery. I believe that I will be a great contribution as a Cyber Security Analyst at Accenture, as I am very curious about Cybersecurity Architecture, Engineering, Governance and Operations Accenture incorporates. Currently I am a Computer Science Senior at Benedictine University studying Bachelors in Computer Science slated to graduate in Spring (May) 2023. I am inquisitive energetic with a strong foundation in math, programming logic, and cross-platform coding. Seeking to leverage development skills as an intern for a leading technology organization.

Skills

- Threat Modeling, Veracode Scanning
- Python, C++, Java, HTML/CSS
- Database: SQL/Postgres
- Graphic Design, Creativity
- Web Design with HTML & CSS

Education

- Highschool: Metea Valley High School - GPA: 3.5/4.0
- College: Lewis University - Major Computer Science

Experience

Accenture

Cyber Security Analyst Intern

Chicago, IL Jun 2022 to Aug 2022

Accenture is a global professional services company with leading capabilities in digital, cloud and security. As a Cyber Security Analyst intern, I am tasked with working on workflows that focus on reviewing apps that pose security risks to users. My responsibilities include:

- Cross-team collaboration and communication to meet aggressive review deadlines across the security queue, various dashboards, and any security incidents/projects.
- Leverage expertise to thoroughly review at app and developer levels
- Recognize recurring spam trends from malicious developers that attempt to hide policy violating content
- Ability to identify gaps within workflows and processes in addition to providing input to relevant stakeholders

Capgemini

Software Associate Intern

Chicago, IL Jun 2021 to Aug 2021

Capgemini is a global leader in consulting, digital transformation, technology, and engineering services. As a Software Associate Intern with the Data & Insights I gained real life programming experience with senior technology professionals, responsibilities include:

- Collaborated effectively with members of software development team and personnel in other departments.
- Prepared and submitted reports and other documentation to assist development team members.
- Produced clean, validation-ready code for project needs. Met with head programmer on weekly basis to provide detailed project reports and milestone updates
- Investigated technical challenges to identify root cause and provide expedient resolutions.
